Item Code	Description	Hrs/Qty	Price	Amount
	We removed and discarded your old existing furnace, air condition and slab coil. We installed a new Ruund/Rheem 3.0 ton 15.2Seer2 air conditioner with a new 92% gas furnace and a new a-coil that sets under the furnace. This equipment reconnects back to your existing ductwork and electrical wiring. The outside unit sets on a pad. One new electrical disconnect was installed per the building code for the outside air conditioner. One new thermostat and carbon monoxide detector were installed. We supplied all materials and labor to install this equipment. **Note: 20x20x1 air filter at top of furnace.			
	3.0 ton 15.2Seer2 air conditioner and materials used for installation	1.00
