OPERATING INSTRUCTIONS

1. STOP! Read the safety information at the left on this label.
2. Set the gas control knob to the "OFF" position.

3. Wait five (5) minutes.

8. Depress and hold in gas control knob. Immediately press igniter button until you hear a "click" sound, then release. Continue to hold down the gas control knob until the status light blinks. Release the gas control knob. It should pop back out. Check to see if the pilot is still lit. If the pilot goes out, repeat steps 2 through 8.
- If gas control knob does not pop out when released, stop and immediately call your service technician or gas supplier.
- If the pilot will not stay lit after several tries, turn the gas control knob to "OFF" and call
