01/23/26--registered online warranty and tstat. /adb
 We removed and discarded your old existing unit. We installed a new 4.0 ton 15.2Seer2 Ruud/Rheem dual fuel system that reconnected to your existing ductwork, electrical wiring and gas line. We did enlarge the return duct to an 18 inch flex. The outside unit sets on a pad. One new thermostat with outdoor sensor were installed. We installed a carbon monoxide detector and a surge protector for this equipment. We supplied all materials, labor and permit to install this equipment.

Paid FLAT RATE INV with ck 3451. Thank you for your business.

BUDGET PLAN BILLING SUMMARY

The Budget Payment Plan can help you manage your fuel expenses with predictable monthly payments. The plan has a 12 month billing cycle, which includes 11 monthly payments and a "settle-up" in the 12th month. The monthly payment is determined by your estimated annual fuel usage. This includes estimated annual fuel deliveries, equipment rentals, service contracts, safety practices & training fees, transportation fuel surcharges and state taxes (if applicable). We will review your account periodically to ensure the monthly payment is adequate to cover expected costs for the duration of the plan year. Any amount due must be paid in full before the new Budget Payment Plan season begins. If there is a credit on your account at the end of the plan year, it will be used to reduce the next year's budget payment amount in equal increments.

The Budget Payment Due can be found in the Budget Plan Summary. You can monitor the delivery information by reviewing the "Account Activity" section.

Please note, the Account Balance will fluctuate throughout the plan year as deliveries are received and monthly payments are made. Over the 12 month period, your Account Balance should work its way to \$0. If not, your monthly budget payment amount will need to be adjusted. If you have any question about the Budget Payment Plan or your monthly payment, please contact your local Customer Service Center.
