	We removed and discarded your old existing unit and ductwork. We capped the hole in the wall with salt treated plywood. We installed a new American Standard 2.5 ton 15.2Seer dual fuel that was relocated to the side of the house with new ductwork. The outside unit sets on a pad. One new thermostat with an outdoor sensor and carbon monoxide detector were installed. We also ran new electrical wiring and extended the gas line to the new system. We supplied all materials, labor and permit to install this equipment. NOTE: Air filter sizes are 16x20x1 and 20x20x1. Monthly non pleated air filter replacement is recommended for maximum efficiency.
