Item Code	Description	Hrs/Qty	Price	Amount
	We removed and discarded your old existing oil furnace, air condition and a-coil. We installed a new Ruud/Rheem 4.0 ton 15.2 Seer dual fuel package heatpump that reconnected to your existing ductwork. The outside unit sets behind the furnace room and the ductwork runs where the window opening once was. The outside unit sets on a pad. One new thermostat and outdoor sensor was installed. We supplied all materials, labor and permit to install this equipment.			
	*NOTE: Gas and gas line supplied by your choice of gas companies at your expense.			
	**David Bowen fired up 10/16/26			
	4.0 ton 15.2Seer dual fuel system and materials used for installation	1.00		
	Model # RDFX4C048AJV102CAAJA Serial # F122601872			
	Warranty on dual fuel: 20 years heat exchanger; 10 years compressor; 5 years parts and coil; 1 year labor, thermostat, outdoor sensor and freon.

	Materials used	1.00		
	Stuck camera in all return vents to check for damper, poked holes in return duct to look for damper and repaired all holes after searching with camera. Ran diagnostic on unit to check static pressure. Replaced 20 foot of duct for return 18 inch flex. Cleaned main return duct with RotoBrush to the stairwell. We think the return duct was damaged when floor was replaced in kitchen area.			
	Services	1.00		1292.73
